

BBI Services

Productivity Improvement in the Construction Sector

Delivering productivity improvement tools through on-demand, digital pathways.

Do you need:

- A proven, accessible way to improve your productivity performance?
- Principles that can be applied to all levels of your business?
- A flexible, construction specific approach to upskilling dispersed teams?

The Solution: **BBI's Productivity Improvement Programme**

This is BBI's construction specific Productivity Improvement Programme, with three bite-sized, digital delivered pathways, each focused on key productivity improvement principles. The programme consists of animated videos, specialists tutorials and knowledge checks to test learners understanding.

The programme has received great feedback from the industry:

"Since completing the Productivity Improvement Programme set out by BBI, the onsite supervision is equipped with a better productivity skillset, I've since found they're questioning me with productivity scenarios, I have a decision to make thereafter...It's refreshing."

Lee Henry, Project Manager, Morrisroe (2 Finsbury Avenue)

A proven programme for improving construction productivity

PRODUCTIVITY IMPROVEMENT PROGRAMME

P1: WORKING PRODUCTIVELY
